

988 is a Local Safety Net

The 988 Suicide and Crisis Lifeline is not one large national call center, but rather, a network of approximately 200 independently operated, independently funded local and state call centers.

988 provides free and confidential emotional support to people in suicidal crisis or emotional distress, 24 hours a day, 7 days a week. We're committed to improving crisis services and advancing suicide prevention by empowering individuals, advancing professional best practices, and building awareness.

How are 988 Calls Routed?

How are 988 Chat/Texts Routed?

Individual Chats/
Texts 988

If individual provides
a CA zip code, and
there is a CA
counselor available,
they will be routed to
this counselor

If a local center is not
available, the
individual is routed to
a national backup
center
